

IT Lab:

Summer Security Intensive

INTERESTED IN CYBERSECURITY? WANT TO MAKE THE WORLD A SAFER PLACE?

Carnegie Mellon University delivers an unmatched experience: IT Lab Summer Security Intensive (SSI), a paid seven-week summer fellowship in cybersecurity.

IN SSI, YOU WILL:

- Earn transferrable undergraduate credit through coursework in security technology, analytics and policy taught by the world's leading researchers in the cybersecurity field.
- Gain real-world experience through projects with actual clients
- Immerse yourself in an extremely important and growing field with excellent career prospects

CMU's Heinz College of Information Systems and Public Policy is home to top master's degree programs in IT Management, Data Analytics, and our first-of-its-kind program in Information Security Policy. SSI provides an opportunity for you to take classes and interact with some of the world's foremost experts in cybersecurity.

SSI takes place at our Pittsburgh, PA campus from June 13 to August 3, 2019.

SUCCESSFUL APPLICANTS WILL:

- Be entering their senior year of college in the following fall semester
- Be a U.S. citizen or permanent resident, 18 years of age or older
- Have a cumulative undergraduate GPA of 3.2 or higher
- Have a sincere interest in cybersecurity, technology, and policy
- Complete and submit their online application by April 1, 2019

You will be provided a stipend and have costs covered for housing, meals, tuition, books, supplies, and travel expenses to and from Pittsburgh.

Students who complete SSI and are later admitted to a master's program at Heinz College will be eligible to receive a scholarship of at least 50% of tuition.

Priority Application Deadline (decision by mid-March): February 1, 2019
Final Application Deadline (decision by May): April 1, 2019
